Complete List of Educational Programs offered in Ukrainian Universities

www.uiec.org
2012/2013

Most Popular FACULTIES among foreigners are:

Engineering Faculties:

- Aeronautics (Aviation)
- Architecture
- Architectural Medium Design
- Monumental Decorative Art
- Municipal Construction and Economy
- Industrial and Civil Engineering
- Building Materials, Articles and Constructions Production
- Heat and Gas Supply and Ventilation
- Water Supply and Sewerage
- Engineering Protection of Environment in Civil Engineering and Building Materials' Production
- Highways and Airfields
- Real Estate Expertise and Management
- Mechanization and Automation of Construction Process
- Buildings' Planning
- Hydraulic Engineering
- Fire Safety
- Direction "Civil Engineering"
- Civil Engineering
- Traffic Engineering
- Bridges and Traffic Tunnels
- Life Safety in Force Majeure Circumstances
- Marine Oil and Gas Constructions
- Energy Supply of Enterprises
- Lifting and Transporting, Building and Road Machines and Equipment
- Powder Metallurgy, Composite Materials and Coatings
- Standardization and Certification

Medical Faculties: (6 Departments, 76 Specializations)

Faculty of General Medicine:

- Pathology with Forensic Medicine
- Obstetrics and Gynecology
- Clinical Pediatrics
- General Pediatrics Infectious Diseases
- Pediatrics with Nursing
- Immunology and Allergology
- Pediatric Surgery
- Hospital Surgery
- Internal Medicine
- Physiology
- Pharmacology
- Microbiology
- Endocrinology and Clinical Pharmacology
- Biology with Parasitology and Genetics
- Cell Biology, Histology and Embryology
- Social Medicine and Public Health

Master of Business Administration (MBA):

- Accounts
- Agricultural Management
- Business
- Business Administration
- Economics
- Finance
- Foreign Economic Activity
- Management
- Marketing

Faculty of Dentistry:

- Topographical Anatomy and Operative Surgery
- Psychiatry and Medical Psychology
- Neurology
- Pediatric Dentistry
- Orthopaedic Dentistry
- Therapeutic Dentistry
- Pediatric Surgery
- Surgical Dentistry and Maxillofacial Surgery

	<ul style="list-style-type: none"> • Ear, Nose and Throat Diseases • Internal Medicine with Physiotherapy
The Faculty of Computer Engineering and Information Science: <ul style="list-style-type: none"> • Computers • Applied mathematics and informatics • Calculus Mathematics and Programming • Philosophy • Traffic Organization • Information Systems and Technologies • Computer Engineering • Computer Systems and Networks • Computer Systems and Networks • Electronic Systems • Electronics • Equipment for Light Industry & Consumer Services • Equipment for Light Industry & Consumer Services 	Faculty of Pharmacy: <ul style="list-style-type: none"> • Organization and Economics of Pharmacy • Technology of drugs and Bio-pharmacy • Toxicological and Analytical Chemistry • Biochemistry • Pharmacology and Organic Chemistry • Inorganic and General Chemistry • Pharmacognosy and Botany • Biophysics • Philosophy • Bioethics
The Faculty of Computer Information Technology and Automatics: <ul style="list-style-type: none"> • Automation and Telemechanics • Automated Systems of Control • Industrial Electronics • Physical Training • Software for Automated Systems 	Faculty of Nursing: <ul style="list-style-type: none"> • Propaedeutic of internal diseases and nursing
Food Technologies & Agrarian Faculties: <ul style="list-style-type: none"> • Accounting and Audit (M) • Automated Control of Technological Processes (M) • Bread-making, Confectionery, Macaroni & Food Concentrate Technology (M) • Ecology & Environment Protection (M) • Economics & Business Administration 	Faculty of Post Graduate Education: <ul style="list-style-type: none"> • Obstetrics, Gynaecology and Perinatology • Anesthesiology and Intensive Care • Eye Diseases • Skin and Venereal Diseases • Clinical Diagnostics • Neurosurgery • Oncology

<p>(M)</p> <ul style="list-style-type: none"> • Food Industry Equipment (M) • Organization Management (M) • Technology of Catering (M) • Technology of Fermentation & Wine-Making (M) • Technology of Fish Storage, Canning & Processing (M) • Technology of Fruits & Vegetables Storage, Canning & Processing (M) • Technology of Grain Storage & Processing • Technology of Meat Storage, Canning & Processing • Technology of Milk Storage, Canning & Processing • Agronomy • Horticulture & Viticulture • International Economic Management • Organization Management • Technology of Fruits & Vegetables Storage, Canning & Processing 	<ul style="list-style-type: none"> • Endoscopic Surgery • Pharmacy Organisation and Economy with a Course of Medicine Technology FPE • Pharmaceutical Chemistry • Pediatrics and Neonatology • Psychiatry and Psychotherapy • Nuclear Medicine FPE • Therapeutic Dentistry FPE • Therapy FPE • Family Medicine • Urology • Surgery FPE • Rehabilitation and Non-Traditional Medicine • Medical Informatics • Maxillofacial Surgery FPE
<h2 style="color: #800040;">List of All Available Degree Programs:</h2>	

- *Accounting*
- *Accounting and audit*
- *Accounting and audit in agriculture*
- *Accounting in advertising*
- *Acoustic facilities and systems*
- *Acting*
- *Administrative management*
- *Administrative management, theory of management, administrative law and process, financial law*
- *Advanced vocational training in basic specialities*
- *Advertising and public relations*
- *Aerospace heat machinery*
- *Agricultural construction*
- *Agricultural engineering*
- *Agricultural machinery*
- *Agricultural management*
- *Agro chemistry and soil science*
- *Agro ecology*
- *Agro meteorology*
- *Agronomy*
- *Air navigation systems*
- *Air traffic organization*
- *Aircrafts*
- *Aircraft and air engines production, maintenance and repair*
- *Aircraft and air complexes system control*
- *Aircraft and helicopters*
- *Aircraft and helicopter design technology*
- *Aircraft and space rockets production*
- *Aircraft engine manufacturing technology*
- *Aircraft engines and power plants*
- *Aircraft equipment*
- *Aircraft, air engines and helicopters exploitation and repair*
- *Analytical quality control of medicinal compounds*

- Animal sciences
- Applied ecology
- Applied informatics in economics
- Applied linguistics
- Applied linguistics (with profound knowledge of two foreign languages)
- Applied material studies
- Applied mathematics
- Applied physics
- Applied psychology
- Archaeology
- Archaeology and ancient history of Ukraine
- Architecture design
- Architecture of civil and industrial buildings and structures
- Art of cinema and television (cinematology)
- Art. Choreography (ballroom dances ballet-master)
- Artillery complexes, devices and instruments
- Artistic culture
- Artistic photography and photographic production
- Assembling and exploitation of electrical equipment of civil constructions enterprises
- Assembling and service of devices and systems of technological production automation
- Astronomy
- Automated control of computer integrated technological complex
- Automatic control of technological processes and production
- Automation and automatization of transport
- Automation and computer integrated technologies
- Automation and control in technical systems
- Automobiles and engines maintenance and repair
- Automobiles and motor-car industry enterprises
- Aviation and cosmonautics
- Banking
- Biology and chemistry
- Biology and ecology
- Biology and farming
- Biology and fundamentals of ecology
- Biology and geography
- Biology and parks' ornament and horticulture
- Biology and physical education
- Biology and practical psychology
- Biotechnical and medical apparatuses and systems
- Boilers and reactors
- Botanic'S
- Bread production, confectionary and pasta technology
- Bridges and transport tunnels
- Broadcast, wireless radio and television equipment
- Building construction products and materials technology
- Business administration
- Cartography -
- Cartography and land-utilization
- Chemical fibers technology
- Chemical technology and engineering
- Chemical technology and equipment of finishing production
- Chemical technology of fats and fat substitutes
- Chemical technology of fuel and carbonic materials
- Chemical technology of high-molecular compounds
- Chemical technology of inorganic matter
- Chemical technology of liquid scattered elements and materials on their basic
- Chemical technology of organic matter
- Chemical technology of pharmaceutical preparations
- Chemical technology of refractory non-metallic and silicate material
- Chemical technology of wood working and plant raw materials
- Chemistry and biology
- Chemistry, biology and basics of ecology
- Choreography

- Choreography and artistic culture
- Choreography. Artistic culture and library science
- Civil and industrial construction
- Clinical pharmacy
- Clothing technology and design
- Commercial activity
- Composite powder materials and coatings
- Compressors, pneumo-aggregates and vacuum techniques
- Computer and intelligent systems and networks operation
- Computer ecological-economic monitoring
- Computer science and fundamentals of economics
- Computer science and mathematics
- Computer science, language and literature (English)
- Computer studies (with profound knowledge of two foreign languages)
- Computer-integrated technological processes and productions
- Computerized complexes and systems of armament and equipment of troops (forces)
- Computerized systems, automatics and control
- Computerized technologies and systems of printing and publishing production
- Construction and exploitation of aerodromes and works
- Consumer goods modelling and design
- Crimean Tatar language and literature
- Cryogenic engineering and technologies
- Cultural studies -
- Customs commodity research and expert examination
- Data security in computerized systems and networks
- Deaf-and-dumb pedagogics and foreign language
- Deaf-and-dumb pedagogics and Ukrainian language
- Defectology and psychology
- Design and manufacture of articles out of composites
- Designing and construction of oil and gas extraction complexes
- Devices and systems of nondestructive check
- Direction (multimedia)
- Diseases prevention
- Document processing and information activity
- Dynamics and strength
- Dynamics and strength of machines
- Ecology and environment protection
- Ecology of food-stuffs and food-stuff production
- Economic statistics
- Economics and entrepreneurship
- Economics and human resources management
- Economics and legal support of entrepreneurship
- Educational establishment management
- Electric drive of industrial installations and technological complexes
- Electric household appliances service and repair
- Electric power plants
- Electric systems and networks
- Electrical engineering consumption systems
- Electrical machines and equipment
- Electrical systems and complexes of transport vehicles
- Electrification and automation of agriculture
- Electromechanical automation systems and electrical drive
- Electromechanical equipment of energy consuming enterprises
- Electro mechanics
- Electronic and information control systems for banks
- Electronic devices and apparatuses
- Electronics systems and networks
- Electro technical surveillance systems
- Elementary education and social pedagogics
- Energy consumption management
- Engineering material science
- Engineering mechanics
- Engineering, production and technical service of electronic products equipment

- English and German, French, Italian languages and literature
- English and Russian (language and literature)
- English language and literature and German language
- English language and literature with knowledge of German and French languages
- English language and literature, second foreign language (Modern Greek, German)
- English, Spanish, Hebrew languages and literature
- Entrepreneurship, management and marketing
- Enterprise economics and legal support of entrepreneurship
- Enterprise economics and management
- Enterprise management
- Environment and natural resources economics
- Equipment for light industry and services
- Equipment for oil and gas output
- Equipment for pressure treatment of metals
- Equipment of chemical engineering and building materials enterprises
- Equipment of pharmaceutical and microbiological industry
- Ethnology
- Experimental nuclear physics and plasma physics
- Exploitation of mineral resources deposits
- Fabrics and knitted wear technology
- Ferrous metallurgy
- Film production management
- Finance -
- Finance and credit
- Fine and decorative-applied arts
- Fine art studies
- Fine arts (sculpture)
- Fine arts and artistic culture
- Fine arts. Ethics and aesthetics
- Fire safety
- Flexible computerized systems and robotics
- Flying operation
- Folk arts (choreography)
- Folk instruments
- Folklore studies
- Food industry equipment and machinery
- Food technology
- Food-stuffs technology and engineering
- Footwear, haberdashery and leather articles production
- Foreign policy
- Forest complex equipment
- Forest engineering technology
- Forestry
- Formative computer technologies in machine building
- Foundry equipment
- Foundry methods of iron and non-ferrous metals production
- French language and literature
- Fruit, vegetable and wine growing
- Garments and leather goods
- Gas dynamic and impulse facilities
- Gas turbine plants and compressor stations
- General medicine
- General population service
- Genetics
- Genetics and selection of agricultural crops
- Geochemistry and mineralogy
- Geodesy
- Geography
- Geography and biology
- Geography and ecology
- Geography and economics
- Geography and foreign language
- Geography and fundamentals of economics

- Geo information systems and technologies
- Geology
- Geophysics
- German language and literature
- German language and literature, second foreign language (Modern Greek, German)
- Goods and services expertise
- Graphic design
- Hairdressing and make-up
- Heat and gas supply and ventilation
- Heat carrier's technology at heat power stations
- Heat power engineering
- Heat power stations
- Heat treatment of metals
- High-voltage engineering & electro physics
- Higher school pedagogy
- Highways and aerodromes
- History and English
- History and foreign languages
- History and law or social pedagogy
- History and social pedagogics
- History and social science
- History, country studies and tourism
- History, history of religion and church
- History, social pedagogy, social management
- History, Ukrainian language & literature, language and literature
- Hoisting and conveying, road-building, engineering and ameliorative machines
- Hotel and tourist services organization
- Hungarian language and literature
- Hunting management
- Hydraulic and pneumatic machines
- Hydraulic power engineering
- Hydro improvement (irrigation) (water science)
- Hydro aerodynamics
- Hydrogeology
- Hydrology and hydrochemistry
- Hydro technical engineering
- History and Ukrainian studies
- Impulse heat engineering
- Industrial heat engineering
- Information processing and decision making systems exploitation
- Informational control systems and technologies
- Informational measuring systems
- Instruments of fine mechanics
- Intellectual property
- Intelligent systems
- Internal combustion engines
- International economic relations
- International information
- International relations
- Jurisprudence
- Jurisprudence (civil law and civil process; international private law)
- Jurisprudence (criminal law and criminology, criminology-executive law)
- Jurisprudence (criminal process and criminal law, juridical examination)
- Jurisprudence (economic law)
- Jurisprudence (international law)
- Jurisprudence (juridical psychology)
- Jurisprudence (specialization in economic law)
- Jurisprudence (with knowledge of two foreign languages)
- Jurisprudence and enterprise economics
- Jurisprudence (law philosophy)
- Labor training. Technology. Information engineering
- Labor training and basics of economics, technical drawing, and safety of life
- Labor training and basics of enterprising

- Labor training and basics of enterprising, technical drawing and safety of life
- Labour and professional training (technical labour) and fundamentals of informatics
- Labour protection and ecology in construction
- Labour rehabilitation and corrective upbringing
- Labour training (needlework)
- Labour training (needlework) and fundamentals of informatics
- Labour training (technical labour) and physical training
- Labour training. Technology. Clothes modeling and design.
- Land forces elements use and control
- Landscape architecture
- Language and literature (German & English)
- Language and literature
- Language and literature (Arabian)
- Language and literature (English)
- Language and literature (English & French)
- Language and literature (English) and computer science
- Language and literature (German)
- Language and literature (Russian & Bulgarian)
- Language and literature (Russian & English)
- Language and literature (Russian, English, German, French, Chinese, Japanese)
- Language and literature (Russian, English, German, French, Spanish)
- Language and literature (Slavonic)
- Language and literature (two foreign languages)
- Languages and literature (English, French, German)
- Languages and literature
- Laser and optoelectronic engineering
- Law enforcement activity
- Leather and fur technology
- Library science
- Lighting technology and light sources
- Limited access information protection & its processing automation in computer systems and webs
- Literary creativity
- Logopedics
- Logopedics and pre-school education
- Machine-building industry labour safety
- Machines and technology of utilized package processing
- Maintenance and repair of automobiles and engines
- Maintenance and repair of chemical and oil-and-gas processing industry equipment
- Maintenance of home electronic appliances
- Management
- Management in environmental activities
- Management in law and order
- Management in non-production sphere
- Management in production sphere
- Management of external economic activities
- Management of socio-cultural activities
- Manager of organisations
- Manual training (technical and service training) and business basics
- Manual training (technical and service training) and informatics
- Manual training (technical training), basics of information technology and business basics
- Manual training and basics of information technologies
- Manufacture of pharmaceutical preparations
- Marine power plants & equipment
- Marketing
- Materials processing on machines and transfer lines
- Mathematics
- Mathematics and computer science
- Mathematics and economics
- Mechanics
- Mechanization of agricultural products processing and storing
- Medical acoustic and bioacoustics devices and apparatuses
- Medical devices and systems

- Medical psychology
- Metal pressure processing
- Metal cutting machine tools and systems
- Metallurgical equipment
- Metallurgy of non-ferrous metals
- Meteorology
- Metrology and measuring instrument devices
- Microelectronics and semiconductor devices
- Military sciences
- Mine safety
- Mineral dressing
- Mining machinery
- Modern Greek language and literature
- Modern Greek language and literature, second foreign language (English, German).
- Municipal management
- Museum science and rarities protection
- Music pedagogy and journalism
- Musical Artistic culture and library sciences
- Musical art (opera and symphony orchestra leading)
- Musical art and choreography
- Musical education
- Musical education and artistic culture
- Musical education and choreography
- Musical education and social pedagogy (family tutorship)
- Musical pedagogy and education
- Non-production sphere management
- Non-production sphere management (with knowledge of two foreign languages)
- Nuclear power engineering
- Nursing (specialist)
- Obstetrics
- Oceanology
- Oil and gas field's development and operation
- Oil and gas geology
- Oil and gas mining equipment
- Olympic and professional sports
- Operation of ship power installations
- Orchestral string section
- Orchestral wind and percussion sections
- Organic matters production
- Organisation of land use
- Organization management (production sphere management)
- Organization of aircraft operations
- Organization of consumer services
- Organization of fire safety and accident prevention
- Organization of transport haulage and management
- Organization of transportation and transport management
- Organizations management
- Orthopaedic stomatology
- Packaging machinery and technology
- Painting
- Painting. Artistic culture and library sciences
- Painting. Artistic culture and library sciences
- Painting. Artistic culture and library sciences
- Park and garden management
- Pedagogical education. Language and literature
- Pedagogical education. Musical education. Ethics
- Pedagogics
- Pedagogics and secondary education methodic. English language and literature, history
- Pediatrics
- Perfumery and cosmetics technology
- Petroleum engineering: oil and gas output
- Pharmaceutical apparatuses technology
- Pharmaceutical preparations technology

- Pharmaceutics
- Philology
- Philosophy
- Photo- and polygraph materials
- Photogrammetry
- Physical and biomedical electronics
- Physical culture and choreography
- Physical culture and physical training of pre-school children
- Physical culture and tourism
- Physical education and methodology of mass sports
- Physical education in special institutions for children
- Physical education, mass sports methods, tourism
- Physical education. Study of mental defects and physical handicaps
- Physical rehabilitation
- Physical theory of materials
- Physical training
- Physical training (basketball)
- Physical training (heavy athletics)
- Physical training (sailing and oar sports)
- Physical training (wrestling)
- Physical training (football)
- Physical training (gymnastics, callisthenics)
- Physical training (powerlifting)
- Physical training (swimming)
- Physical training (tennis)
- Physical training (track and field athletics)
- Physical training (volleyball)
- Physical training and pre-conscription military training, tourism
- Physics
- Physics and astronomies
- Physics and basics of computer science
- Physics and basics of computer science and computer technologies
- Physics and car studies
- Physics and chemistry
- Physics and informatics
- Physics and mathematics
- Physics of solid body
- Physics of nucleus and elementary particles
- Physics, informatics and astronomy
- Physiology
- Plant protection
- Plastics and elastomers recycling technology
- Polish language and literature
- Polish language and literature
- Political science
- Polymers processing technology
- Polymers technology
- Postal communication
- Power engineering
- Power systems in agricultural production
- Practical psychology and social pedagogy (social management)
- Practical psychology and social psychology (psychological and pedagogical consulting in rehabilitation centers)
- Primary education and applied psychology
- Printing and publishing production materials
- Printing presses and automation systems
- Production of non-metallic refractory and silicate materials and items
- Production of non-metallic refractory and silicate materials and items
- Production organization
- Production technologies (clothes design) and basics of information technology
- Production technologies (cooking technology) and basics of information technology
- Production technologies (driving) and basics of information technology
- Programming for computers and automatic systems

- Project management
- Psychology
- Psychology and management of organizations
- Psychology and social psychology
- Psychology. Social pedagogic
- Public administration, local government
- Public electrical transport
- Publishing and editing
- Publishing computer systems
- Quality, standardization and certification
- Radio engineering
- Radio physics and electronics
- Radioecology
- Radio electronic complexes, systems and facilities exploitation and repair
- Radio electronic devices, systems and complexes
- Railway constructions and tracks
- Railway operation and management
- Railways and railway machinery
- Re-training personnel in basic specialties
- Real estate management and expertise
- Record keeping
- Recreation systems architecture
- Refrigerating machines and units
- Religion studies
- Restoration of art works
- Robots engineering systems and complexes
- Rolling stock and special machinery for railway transport
- Romanian language and literature
- Russian and Ukrainian (language and literature)
- Russian language and literature
- Russian language and literature
- Russian language and literature and English language
- Russian language and literature and social pedagogics
- Russian language, literature and artistic culture
- Safety of activity
- Science of commodities and commercial activities
- Science of metals
- Scientific, analytical and ecological devices and systems
- Security of data with limited access and automation of its processing
- Selection and genetics of crops
- Service maker
- Shaft sinking and drifting
- Ships & ocean technology
- Show business management
- Slovak language and literature
- Social and cultural activity
- Social informatics
- Social pedagogics
- Social pedagogics and applied psychology
- Social pedagogics, social & legal protection of children & youth
- Social psychology
- Social work
- Sociology
- Software of automated systems
- Sound control
- Space rocket power plants
- Space vehicles design and manufacturing
- Spanish language and literature
- Special metallurgy
- Specialized computing systems
- Speech writer
- Spinning of natural and chemical fibers
- State service

- Statistics
- Stomatology (dentistry)
- Study of mental defects and physical handicaps
- Surface mining
- Surveying
- System analysis and control
- System of land use and cadaster
- System programming
- Systems of control and automatics
- Systems of electrical power production and distribution control
- Systems of fire prevention and technological automatics
- Systems of protection against unauthorized access
- Technical electrochemistry
- Technical training. Technology. Fundamentals of design
- Technological and metallurgical processes in welding
- Technologies and technological equipment of airports
- Technologies of fruit and vegetables storage, preserving and processing
- Technologies of meat storage, preserving and processing
- Technologies of milk storage, preserving and processing
- Technology and equipment of machines and constructions renovation and durability enhancement
- Technology and equipment of welding
- Technology of fat and fat substitutes
- Technology of fats and fat substitutes with specialization in technology of volatile oils
- Technology of fermentation processes and wine making
- Technology of fish and seafood storing, preserving and processing
- Technology of food-stuffs of sanitary and preventive purpose
- Technology of grain storage and processing
- Technology of machine building
- Technology of minerals underground mining
- Technology of natural fiber
- Technology of polymers processing
- Technology of sweeteners
- Telecommunication technologies and means
- Telecommunication
- Telecommunication systems and certification
- Textile and knitting technology and design
- Theater business organization
- Theatrical art
- Theology
- Theory and history of culture
- Theory and methods of secondary education
- Theory and methods of secondary education. Biology
- Theory and methods of secondary education. Chemistry
- Theory and methods of secondary education. Geography
- Theory and methods of secondary education. Handicrafts
- Theory and methods of secondary education. History
- Theory and methods of secondary education. Language and literature (Russian, English and German)
- Theory and methods of secondary education. Mathematics
- Theory and methods of secondary education. Musical education
- Theory and methods of secondary education. Physical education
- Theory and methods of secondary education. Physics
- Theory and methods of secondary education. Ukrainian language and literature
- Theory, history of literature
- Thermal physics
- Tools production
- Traffic organization and regulation
- Training courses in Russian and Ukrainian languages for foreign students
- Translation, language and literature
- Translation/interpretation (two foreign languages)
- Translation / interpreting
- Transport management

- Transport systems
- Transport technologies
- Turbines
- Turkish language and literature
- Typhlopedagogs and social rehabilitation
- Ukrainian language & literature, applied psychology, language and literature
- Ukrainian language & literature, English, foreign literature
- Ukrainian language & literature, language and literature
- Ukrainian language & literature, Rumanian language and literature
- Ukrainian language and applied psychology
- Ukrainian language and literature
- Ukrainian language and literature & Russian language and literature
- Ukrainian language and literature and English language
- Ukrainian language and literature and foreign language
- Ukrainian language and literature and journalism or history
- Ukrainian language and literature and literary edit
- Ukrainian language and literature, language and literature (English or German)
- Ukrainian language and literature, literary editorship and library science
- Ukrainian language and literature, school library science
- Ukrainian language and literature, social pedagogy (advertising and social work)
- Ukrainian language, literature and English language and literature
- Ukrainian language, literature and artistic culture
- Ukrainian language, literature and Ukrainian studies
- Ukrainian language & literature, Bulgarian language and literature
- Ukrainian language, literature and applied psychology
- Ukrainian language, literature and history
- Ukrainian language, literature and psychology
- Unconventional power sources
- Urban civil engineering and economy
- Variety art
- Veterinary medicine
- Video-, audio- and cinema engineering
- Vocational training
- Vocational training (in light industry, machine building, electrical engineering)
- Vocational training. Automated control systems of industrial installations
- Vocational training. Automatization of technological processes of chemical productions
- Vocational training. Computer systems and networks
- Vocational training. Computer technologies in machine-building industry
- Vocational training. Computer technologies in management and education
- Vocational training. Economics of enterprises. Marketing management
- Vocational training. Electric power engineering
- Vocational training. Electronics, radio engineering, electronic circuit engineering, communication
- Vocational training. Fashion design
- Vocational training. Fundamental processes of chemical productions
- Vocational training. Machines and apparatuses of chemical productions
- Vocational training. Metallurgy in machine-building and instrument-making
- Vocational training. Metrology, standardization and certification in machine building industry
- Vocational training. Operation and maintenance of industrial transport
- Vocational training. Technology and equipment of welding works
- Vocational training. Technology & equipment for automated production in machine-building & instrument making
- Vocational training. Technology of textile and light industries
- Vocational training. Technology. Management
- Water and fuel technology at heat power stations
- Water bio resources
- Water bio resources and aquaculture
- Water supply and drainage constructions and equipment
- Welding
- Welding machines
- Wheel-moved vehicles and tracks equipped transport
- Wood working technology

- World's history
- Zoology

All the Programs Are Available At Bachelor, Masters and PhD Level
